46	Technical Information

From the Barazza experience comes Aura, the new collection of white goods: built-in dishwashers and refrigerators designed to bring a breath of fresh air to the kitchen. Different versions, perfect technology employed to ensure maximum hygiene and practicality in dishwashers, and to recreate differentiated cold zones that facilitate food preservation in refrigerators.

## 60 CM AURA REFRIGERATORS

The ritual of freshness.

Aura is the pure cold of built-in combi-refrigerators in the 60 cm size, available in Advance and One versions.

Two forced convection systems and two separate air circulations ensure independent cooling and freezing, preventing the mixing of odors. Thanks to the Tropical 43° C climate class, the refrigerator can operate optimally in environments with temperatures between +10° C and +43° C.

The Metal Cooling interior finish, with its elegant design, enhances aesthetics and improves cooling performance. The Dual Control display with Touch Control allows separate control of the refrigerator and freezer compartment temperatures and functions.

The V-Lift system provides convenient height adjustment for the bottle shelf, allowing six different heights to optimize space.

LED lighting on the sides and top ensures uniform visibility of food inside the refrigerator.

The VitaMod drawer, whose lighting replicates the spectrum of sunlight, preserves the freshness and nutritional value of food, maintaining the vitamin C content up to 90% and antioxidant activity up to 83%.

The ZeroGradi drawer also creates optimal conditions for the prolonged storage of fresh meat and fish.

## 60 CM AURA DISHWASHERS

Purity in detail.

---

Aura is the care for hygiene thanks to the technological innovation of the fully integrated 60 cm dishwashers, available in Advance and One versions.

The silence of the inverter motor, adjustable capacity based on the load and numerous intelligent washing and drying functions are just a few of the many innovations.

The AutoDoor function increases the efficiency of the Turbo drying system by automatically opening the door at the end of the cycle.

The internal lighting makes it easy to load and unload dishes without needing to turn on other kitchen lights.

The Smart Wash function uses intelligent technology to optimize washing time and temperature based on the amount of dirt, ensuring high performance.

The Triple Wash technology, with additional sprayers under the lower basket, offers excellent cleaning for very dirty dishes and pots, while Direct Wash ensures deep, multi-directional cleaning with millimeter precision.

MODULARITY OF 75  
Conquering new dimensions.

Barazza presents a new modularity of 75 cm in line with current furniture trends: oven, microwave, induction hob, sinks, square bowls and refrigerator promise to give a new dimension to the kitchen environment.

75 CM ICON X OVENS  
AND MICROWAVE

The measure of results.

---

The new 75 cm Icon X oven with coordinated microwave stands out for its impressive 89 litre capacity and numerous functions, reflecting the latest trends in interior design.

It features Soft-Touch knobs and handle, as well as Soft-Close hinges, providing a pleasant and safe user experience.

Available in Exclusive, Steel, and Glass finishes, this oven perfectly fits various decor styles, making it a versatile and elegant choice for any kitchen.

A high-angle, black-and-white photograph of a modern kitchen countertop. The countertop is a dark, solid material. On it sits a black induction cooktop. Two pots are on the cooktop: one on the left with green tomatoes and one on the right with green peas. Steam is rising from both. Between the pots is a rectangular, recessed area, likely for a filter. To the right of the cooktop is a black tray holding fresh herbs, a small bowl of yellow zest, and a small bowl of dark seeds. The background shows a window with a view of greenery.

## 80 CM ZERO ADVANCE INDUCTION HOB

Functionality in evolution.

---

The new cooker hood arrangement enhances suction quality and the available space on the hob.

The updated filter version requires no special installation and allows easy removal of filters from the worktop, making routine maintenance practical.

The cooker hood control integrated into the Touch Control panel features a convenient automatic start to immediately capture odors.

integrated cooker hood

Accessories: **74**

### INDUCTION

- Touch Control
- functions: power management, Bridge, automatic pan recognition, Booster, selective pan detection, pause/reminder function, cooking end timer 1-600', minute minder, automatic preheating, keep warm
- safety devices: electronic child safety lock, residual heat indicator, overflow alarm, safety switch-off
- minimum pan diameter:  $\varnothing 110$  mm
- adjustable power levels: 2.8 – 3.5 – 4.5 – 7.4 kW
- maximum absorbed power: 7.4 kW

### HOOD

- speeds: 8 + 2 intensive speeds
- automatic hood extration
- rated air-flow: 800 m<sup>3</sup>/h
- pressure: 497 Pa
- noise level: 63-69 Lw (dBA)
- filter: black aluminium
- energy rating: A+
- maximum absorbed power: 0.22 kW
- rear outlet
- optional filtering extraction
- suction outlet cut out: 221x91 r.12 mm

### Induction zones power:

- 4 Octa zones: 2.1 – 3 (\*) – 3.7 (\*\*) kW
- (\*) with Booster function
- (\*\*) with Bridge function

- 75x47.5 cm cut out  
flush: see website

## CERTIFICATIONS

Barazza is certified according to the standards UNI EN ISO 9001 and 14001.

In addition to the UNI EN ISO 9001 certification, which guarantees quality control and optimisation of production processes, and has customer satisfaction as its primary objective, Barazza also complies with UNI EN ISO 14001. The aim is to maintain and improve its environmental system. This includes managing the impact of its activities in an effective and eco-sustainable manner, optimising natural resources, as well as energy resources, and implementing regular control systems for waste disposal and preventing environmental pollution.

## GENERAL NOTES

Barazza reserves the right to make any changes, at any time and without prior notice, to improve its products. The colours shown are by way of example only. Reproduction of this catalogue for commercial purposes, without specific authorisation from Barazza, is strictly forbidden.
