

ABOUT US

At COOC, we were born with a clear mission: to bring superior quality products back to the market, in an environment where many brands have succumbed to the pressure of price wars, sacrificing durability and excellence simply to maximize margins and sales. Although we are a new brand, we have the backing of a manufacturer with decades of history, recognized worldwide for its unwavering commitment to quality and innovation. A company with over 130 years of history and an impeccable reputation. This partnership allows us to offer you products that not only stand out for their advanced technology, but also for their environmental friendliness and long-lasting durability.

At COOC, we firmly believe that quality should not be compromised for the sake of immediacy. That's why we take an approach that combines state-of-the-art technology with sustainable practices and high-quality materials to deliver products that not only meet, but exceed the most demanding expectations. With us, you get the best of both worlds: the freshness and dynamism of a new brand, along with the guarantee and security that only a long tradition of excellence can offer. We are proud to be part of a necessary change in the market, where real value is once again the protagonist: welcome to a new era of trust, green technology and total quality!

ULTIMATE COOL IN THREE STEPS

The 'American' Bottom-Freezer refrigerators from iomabe are available in 80 models. There will always be one to match your requirements and tastes.

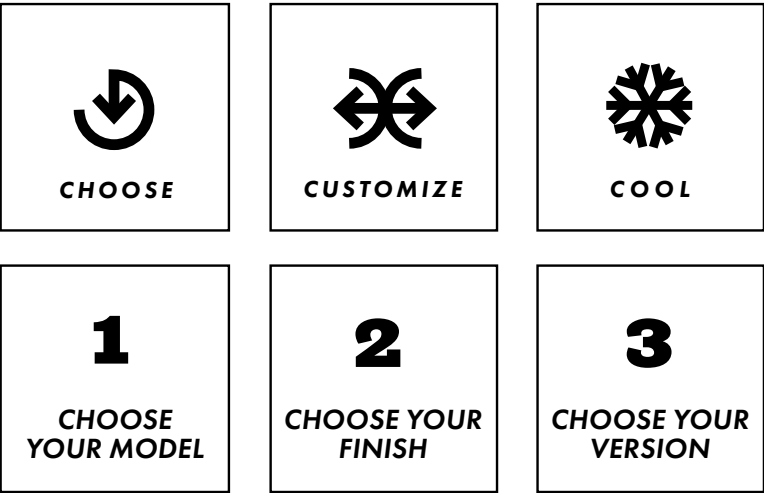

But which one is it?

This catalogue takes you through the process of tailor-making your Bottom-Freezer refrigerator step by step.

Choose | The first question is: do you want a freestanding or built-in Bottom-Freezer?

Customize | The second question is: In what color/finish do you want your refrigerator to be?

Cool | The third question is: Which version best matches your requirements?

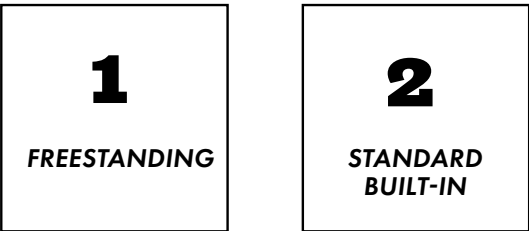

FREESTANDING OR BUILT-IN?

CHOOSE

The Bottom-Freezer refrigerators from iomabe can be installed in two ways.

Firstly there are models that can be installed freestanding. For the freestanding models there is the choice of two different options: The US Style (basic) models and the fully clad models.

Secondly there is the option of having your 'American' refrigerator built in, whereby the doors project slightly from the wall. Building in an 'American' Bottom-Freezer refrigerator is unique to iomabe and is not possible with most rival models.

A FINISH TO MATCH YOUR TASTE OR INTERIOR

CUSTOMIZE

With the 'American' Bottom-Freezer refrigerator from iomabe you really are choosing a bespoke refrigerator that looks the way that you want. You choose the color or design that matches your taste or interior. And there's plenty of choice. Hence there are models with an attractive and tough stainless steel finish. Many models are available as standard in matt black or matt white. And should that still not offer enough choice, your iomabe can also be supplied in your choice of RAL color. For anyone who fancies a bright pink, sky blue or daffodil yellow Big American, for instance.

THESE HANDLES PERSONALISE YOUR REFRIGERATOR EVEN FURTHER

CUSTOMIZE

Various handles are available for all Bottom Freezer models in the iomabe series, so you can customize the refrigerator to your requirements even better. You can choose the standard robust "Café" handle which is available in stainless steel, matt black, matt white or in a RAL color of your choice, or choose the design handles which are available in matt black, matt white or in RAL color of your choice.

THESE VARIANTS MAKE YOUR KITCHEN COMPLETE

COOL

#1 | Bottom Freezer 2-doors (Page 7/11)

This is the version with 1 door at the top and a drawer at the bottom
Width approx. 84 cm, right hand door or left hand door.

| TWIN configuration (Page 13)

ZTwo Bottom-Freezer connected with a special connection kit
Suitable for standard built-in and US style models. Width 169 cm

#2 | Bottom Freezer 3-doors (French door) (Page 15/19)

This is the version with 2 doors at the top and a drawer at the bottom
Width approx. 84 cm

#3 | Bottom Freezer 3-doors (French door) XXL - 765L! (page 21/25)

This is the version with 2 doors at the top and a drawer at the bottom
Width approx. 91 cm, case depth 75 cm XXL

#4 | WineCooler (Page 27/28)

Undercounter, wine cooler, dual zone in black or stainless steel
hinge reversible, matches perfect with the undercounter beverage center

#5 | Beverage center (Page 27/28)

Undercounter, beverage center in black or stainless steel
hinge reversible, matches perfect with the undercounter wine cooler

American performance, European design.
Let's make your kitchen **cool** again!

ICO19-SERIE

FUNCTIONS | BOTTOM FREEZER 2-DOORS

CLIMATEKEEPER TECHNOLOGIE

In order to keep your food fresh for as long as possible, these technologies ensure a uniform and precise temperature in each of the refrigerator's compartments. This is achieved by fitting sensitive electronic sensors, an air tunnel across various levels and fans linked to the most advanced electronics. This considerably improves the quality and storage life of your food.

NO FROST & FROSTGUARD

No Frost ventilated cooling guarantees homogeneous temperatures which enable you to store your food better and freeze it more efficiently. The FrostGuard technology makes automatic defrosting a lot more convenient. Your refrigerator will only defrost when it is necessary on the basis of precise measurements. This considerably reduces the risk of freezer burn. This technology means that food can be stored longer and better, and you no longer need to defrost manually.

FUNCTIONS | BOTTOM FREEZER 3-DOORS

DOOR ALARM

SABBATH MODE

TURBOCOOL FEATURE

Quickly cools back down to the set temperature when the door has been open for an extended time or when hot foods have been placed inside.

ADJUSTABLE, SPILL-PROOF GLASS SHELVES

Provide storage flexibility, ease of use and quick clean-up – benefits every consumer appreciates.

WATER DISPENSER

Chilled and filtered water

2X ADJUSTABLE HUMIDITY CRISPERS

Provide the ideal storage environment, keeping fruits and vegetables crisp and fresh.

INTEGRATED ICE-MAKER

Ice is easy to access directly from the ice bin.

MULTI-LEVEL SLIDE N' STORE FREEZER DRAWERS

In the freezer compartment there are two full extension drawers for easy access to all frozen food items.

LED-LIGHTING

Bright and effective lighting. The LED lighting is fully integrated in the walls, so that no capacity is lost.

WATER FILTER (GE SMARTWATER)

Our water filter will remove chlorine, lead, cysts, mercury, and many other contaminants. By reducing contaminants and odors, we have cleaner and better tasting water and ice.

QUICKSPACE SHELF

Creates extra storage space for tall items such as flowers, special desserts, and bottles.

ADJUSTABLE CLEARLOOK DOOR BINS

Large capacity door compartments in clear, tough Lexan. These can be removed and repositioned, making maintenance easy and allowing you to match the layout to your requirements.

ADJUSTABLE TEMPERATURE DELI DRAWER

Provides a temperature-controlled, easy access environment for fresh foods.

LED-LIGHTING

Bright and effective lighting. The LED lighting is fully integrated in the walls, so that no capacity is lost.

CLIMATEKEEPER TECHNOLOGIE
